Vanessa

A nice flow of lines, a variety of colors and exclusive design make the Vanessa series a true pearl of Botticelli TM. You will find a harmonious combination of colors, functional filling, and outstanding design in it.

You can complete this collection with a mirror or a mirror cabinet, choose a 90, 110, or 120 sizes of a vanity unit with an artificial stone washbasin and finish the bathroom design with a multipurpose storage unit – when turned 180° it may become right or left.

Rimini

The Rimini series will please you with an excellent choice of sizes, textures, and colors. With furniture of this collection, you can arrange the bathroom space both in colorful colors and in the calm shades of natural veneer.

This collection is characterized by many variations of sizes and textures: you can choose 80, 100, and 130 vanity units with high gloss paint or a matte veneer, a mirror of a suitable size and design, and also finish the bathroom design with a storage unit. The series is completed by artificial stone washbasin.

T-80

Treviso

The Treviso is a classic in modern design. With the furniture you will add to the bathroom, sophistication is always possible.

Furniture of white or silver frame with an artificial

series is an aristocratic modern design. The furniture of this collection, with its richness and luxury to the touch, give it uniqueness and distinction. As you know, the classic is always popular, so the design of your bathroom will be relevant for many years.

This collection is characterized by restraint of colors, which is diluted with gold tones, as well as a nice flow of lines and contours. The collection is completed by a special stone washbasin, as well as a right storage unit.

Levanto

Calm colors, unusual forms and textures, practical filling and design solutions are the main features of the Levanto series. Soft velvet to the touch, it will pleasantly surprise you with its filling – wooden drawers will allow optimally to use space in vanity unit for the bathroom.

The collection is completed with a mirror cabinet with a built-in and separate LED-lighting, as well as a storage unit, which has glass shelves, where you can keep a lot of things. The series is completed with an artificial stone washbasin, and outwardly the product is painted with a matt paint with the effect of "Tactus".

ing system of full drawing out

Toscana

White, high gloss painted and non-standard functional features are the formula for the success of the Toscana series. Drawers with a system of full opening will allow you to optimally use all space in vanity unit, and hidden self-closing guides will provide comfortable exploitation.

The collection is completed with a mirror cabinet with an LED-light, as well as 70 and 170 sizes storage units. The inner space of it is divided by shelves, which allow you to fill up the available space as much as possible. The collection is completed with an artificial stone washbasin, and the product is high gloss painted outwardly.

collection SORIZO

with self-closing function

Sequetto

Lightness and weightlessness, glossy surfaces and smooth lines make a Sequetto series a successful solution for any bathroom. It is suitable for both calm and colorful design, and will surprise you with maximum practicality and functionality.

One of the features of the series is the lack of handles: their function is performed by special notches on front parts. The collection is completed with a mirror cabinet with a built-in LED-lighting, and also with two storage units: bigger and smaller one. The series is completed with an artificial stone washbasin.

About us

"Botticelli" TM is a Ukrainian manufacturer of bathroom furniture of premium segment. We started our activity in 2008 on the basis of one of the leading manufacturers of bathrooms furniture in Eastern Europe – "Juventa" company, and from 2014 we are an independent factory.

The furniture of "Botticelli" TM is quality, elegance, practicality, functionality. The art of Sandro Botticelli inspires us every day to create bathroom furniture: lightness, line simplicity, gracefulness and elegance of the artist's works are reflected in our collections.

Our bathroom furniture will pleasantly surprise you, because:

1. It has an original and unique design. We are always one step ahead and therefore
2. It is made both manually and on modern equipment. During the complete technology, namely high-precision equipment and digital software control.
3. Materials used in the manufacture of furniture are supplied by the best manufacturers
4. The most up-to-date production in Eastern Europe meets the requirements of quality
5. Our products are comfortable and functional. We think over the smallest details: perfect
6. We provide a 24-month guarantee and after-sales service for all bathroom furniture

We produce high-quality bathroom furniture and day by day prove the customers that. In our catalog you will find over 140 items of products in the range. "Botticelli" TM is k
